

Help us make some new Learning Loaves!

Can you spare some time to make us a couple of challah that we can use as part of our school visits? We have two loaves that we were kindly donated when we opened (varnished for preservation) that are used in nearly all our school visits when we talk about kosher food in the kitchen. However they are now looking a bit worse for wear, and we'd love to be able to replace them.

Can you help?
